Runaway Horses Damaged Automobile

A pair of horses attached to a heavy wagon raced down Main street Tuesday afternoon, colliding with an automobile and hurling a man to the ground who rushed out to check their wild career.

The team was owned by Frank Blackett. Their street and left standing by the driver, Frank T. Cotton, on Cottage street while he went into his house on an errand. The pair swung around Beals Tavern onto Main street and made for home. Everything went smoothly until they reached S. J. Records' hardware store, where the runaways plunged head on into Arthur Records' Overland, driving the pole into the rear body. They were held fast for a second, then cleared and passed around the car over the sidewalk opposite Steve Hath's house. The wagon rolled over several times, smashing the pole and doing other damage.

L. E. Dow rushed from the Norway Auto Co.'s garage and endeavored to check the wild race, but was hurled to one side, thus escaping serious injury from the heavy cart swinging along behind. Herbert F. Andrews brought the team to a standstill opposite his residence. The horses were uninjured, but the trip will nevertheless prove expensive.

A hole the size of a plate and other damage was registered on the car while a good portion of the wagon frame will have to be replaced. This team is winning fame with their sprinting stunts, they have worked off this stunt twice before. Many autos and teams were on the street so altogether the damage is light in comparison to what might have happened.

New Post Office Nearly Finished
The new Norway postoffice in the Beck block is nearly completed and will be occupied within two weeks. Postmaster Frank E. DeCoster states under the new arrangement his force will have 1800 sq. ft. in which to work against 1300 at the present location. There are 350 boxes with separate windows for stamps, parcel post, money orders and general delivery. Within the enclosure every device that can assist the clerks, city delivery carriers and R. F. D. men to handle the large business can be found. In other words, Norway has one of the best offices for its size in the state, barring none.

Bourn, Hadley Co. of Templeton, Mass. are the makers of the furnishings. The partition including metal boxes and windows is of solid oak and certainly a fine piece of workmanship. G. H. Hadley of the firm is supervising the installation and assisted by several local carpenters. He says, "Norway has one of the best out fits anywhere around and equal to any other company have placed in large cities."

Pythian Sisters' Outing
An automobile party of Lake Temple Pythian Sisters gathered by invitation at the home of Mr. and Mrs. Ernest Thayer, on Cottage street, Friday evening. The farm buildings were illuminated and lanterns strung about the lawn in honor of the occasion. Both host and hostess gave the pilgrims a hearty welcome and entertained royally during the evening. Each one contributed to the menu while Mr. and Mrs. Thurston furnished coffee, fancy cookies and crackers, ice cream, plants and maple fudge.

Games and music followed. Berenice Nash rendered several vocal solos and a piano accompaniment for Fred M. Davis, violinist, during the games. At 10 o'clock the night hour Miss Nash and Elton Brown sang the duet "The End of a Perfect Day" and the party returned home casting a unanimous vote that the Pythian sisters are ideal entertainers and their hospitality will long be remembered.

Norway High School

Norway high school will open Sept. 10. It has been asked by some why school is to open on the week of the fair. Primarily if school should open a week later, with a fourteen week term it would give only a week for the Christmas vacation. After a fourteen week term one week for vacation is not enough as teachers and pupils are very tired and need the two weeks so as to do their best in the winter term. If the winter term begins a week later than usual it either necessitates a week's spring vacation which is undesirable for the same reason stated above or keeping the high school in session beyond the middle of June. As the first few days of the school year are necessarily used for organizing the classes and the work, there is no special disadvantage in beginning school on fair week.

The following class of 31 members was promoted from the ninth grade to the high school last spring:

Roland E. Andrews
Leo Bennett
Earl L. Bradford
Francis M. Chick
George C. Crooker
Stephen J. Cummings
Charles F. Cummings
Ernest Desautels
Grace A. Dube
Gustavine E. Foster
Mabel E. Hunt
Madelyn G. Hayden
Elsie Kimball
Leon L. Kilgore
Elizabeth M. Klein
Blanche M. LaFrance

Last year due to the increase in the enrollment in the high school it became necessary to take over the eighth grade room for high school use. This made it necessary to house the third grade at the church during the year. We graduated 23 from the high school this year and there will be an entering class of between 40 and 50 members. It has been impossible to find or provide suitable quarters for the third grade for this year so the school officials were confronted with a difficult problem to solve. We had six rooms for seven grades. No room was large enough to accommodate two grades.

This summer while at Columbia University I consulted Dr. George D. Strayer and his assistant to see if they could suggest a solution for our difficulty. Dr. Strayer is one of the foremost authorities in the country on school administration. They told me if I should organize the work in the first eight grades properly there was no excuse for the north grade.

New England is about the only section of the United States that retains the ninth grade. I consulted several superintendents from different parts of the United States and obtained enough ideas concerning efficient systems that were working successfully to be convinced that an eight grade system could be successfully used in this village. I will publish the details of the plan in next week's Advertiser.

By thus reorganizing the grade work we shall have six rooms for six grades. The sixth, seventh and eighth grades will be grouped for departmental work, the same as last year. The first three grades will be given the room used by the sixth grade last year and the three upper grades will occupy the rooms occupied by the three upper grades last year. Miss Dresser will teach half of the day in the high school and the other half in the new building. Each one contributed to the menu while Mr. and Mrs. Thurston furnished coffee, fancy cookies and crackers, ice cream, plants and maple fudge.

Games and music followed. Berenice Nash rendered several vocal solos and a piano accompaniment for Fred M. Davis, violinist, during the games. At 10 o'clock the night hour Miss Nash and Elton Brown sang the duet "The End of a Perfect Day" and the party returned home casting a unanimous vote that the Pythian sisters are ideal entertainers and their hospitality will long be remembered.

Observed Wedding Anniversary

Dr. and Mrs. L. Hall Trufant were given a surprise party at their home Monday evening. This date being their tenth wedding anniversary, many considered it a fitting time to gather for a social evening without a formal invitation.

The time was pleasantly spent without any set program, but the host and hostess though taken by surprise, were equal to the occasion and all joined in real old fashioned sociability. Punch, fancy cookies, saltines and olives were served under the direction of Elizabeth Bailey, who had been let into the deely laid plot.

A white frosted bride's cake was cut and distributed by Mrs. Trufant. The doctor dissected a fumble from his piece; Mrs. Trufant found a ring; Orin Stone secured the button and Sadie Howard had the coin.

Rev. H. L. Nichols on behalf of friends presented an expensive set of Haviland china; while each brought forward a treasure offering as a memento of the occasion. Dr. Trufant responded, thanking all for their kindness.

Among the guests were Rev. H. L. Nichols, Mr. and Mrs. Ransom Gould, Mr. and Mrs. Orin L. Stone, Mr. and Mrs. Dennis Joslin, Mr. and Mrs. Hiram Calk, Mr. and Mrs. Harry E. Gibson, Frank P. Stone, Mrs. Ralph Harriman, Mrs. Hunt, Eugene Olive Stone, Beatrice Stone, Marion Gibson, Sadie Howard, Gertrude Howard, Grace Howard and Elizabeth Bailey.

Hosea McKay went to Everett, Mass., and attended the funeral of Adelbert H. Bicknell in that city Saturday afternoon. The deceased was on duty at the naval station at Bunkin Island and drowned while bathing. He was the son of Geo. and Abbie (McKay) Bicknell, both former residents of Norway.

Myrtle Bacon, a teacher in Hyde Park, Mass., has been the guest at Mr. and Mrs. Clarence Smith's. She has been spending the vacation with relatives at Bryant's Pond and West Paris, Me., where she is working sometime this week.

Catherine Stevens of Auburn has been entertained by Doris Shepard at Hillcrest Farm cottage by the lake side.

The Shepards gave a clam bake on the evening of August 23 to several friends at their Hillcrest Farm cottage. It rained hard, but failed to dampen the spirit of the pleasure seekers. The party went bathing and returned for an informal social hour on the wide veranda. Refreshments included clams, fancy crackers, pickles, olives, cake and sherbet. Several were unable to attend because of the weather, but a large number were present including Mrs. John Shepard and daughters Clara and Doris, Oliver Purlston of New York, Mr. and Mrs. Roger Parker, Mr. and Mrs. Ralph Harriman, Mildred Noyes, Marion Gibson, Donald Andrews and Francis Andrews.

Leroy Spiller attended the 17th Annual Convention of the Maine Underwriters' Association, held in Augusta, recently.

Everett B. Tarhune and family are occupying their cottage, the Kingsfield, at Lake Pennesseewassee for two weeks. Their guest is Eric Holburn of Boston.

Chas. E. L. Adams has been spending a vacation with her aunt, Mrs. F. Robert Seavey, at Beals Tavern returned home Monday morning. She was accompanied by her sister, Louise Sheldon, who will return in the morning to enter the University of Maine in September.

Mrs. Marion Adams Saunders and Thelma Adams returned to their home in Senechett, N. Y. by rail Monday morning. Clifford Adams departed Monday and went back with the Oakland car.

Mrs. Charles H. Adams has packed her furniture and will make her home with her daughter, Mrs. Harry P. Jones, Deering street.

Sam Stowell of Norwalk, Ohio, arrived Friday for a month's visit with his daughter, Mrs. Addie Lovejoy. Mr. Stowell is a native of Bethel, but went West many years ago while many Ohio towns were small, but growing rapidly. His last visit east was four years ago.

Zilba Parker of Bethel, Me., is in town several days this week visiting at Frank Lovejoy's.

John Sanborn is substituting as baggage master at the Norway depot during the week while Oliver Foss is having a vacation at his home in Leeds.

Mr. A. L. Clark arrived from Old Orchard Monday on business and returned later. Business at the Seaside Drug Store has been brisk and will continue good until the season closes. Labor Day has completed an auto trip of 1044 miles going through all the New England States back to the big city. Two weeks ago he was in the city and a two night special group for the following school year due to the re-arrangement of the work in the grades:

Nora P. Hascall
Louise Thomas
Benjamin Barber
Herbert M. Drew
Grace M. Gammon
Edwin A. Gammon
Edward S. McCormick

Norway village grades and rural schools will open Sept. 17th. At a school board meeting at Waterford on Aug. 29th, it was voted to postpone the opening of the schools to Sept. 24. This vote was caused by a desire by many to have the older pupils help with the fall work and the shortage of labor it is deemed desirable. This will bring the close of the fall term to Dec. 14, consequently there will be three weeks' vacation at Christmas time.

Several automobiles were used to transport the Veranda Club to Lewiston this Thursday morning, where they will be the guests of Mrs. A. Miller for the day. Mrs. Miller was an active member in the club during her residence here and this invitation was gladly accepted.

The Maine Sammies, otherwise the Second Maine Regiment and the First Maine Regiment of Heavy Artillery, are to appear in Red Theatre, Monday and Tuesday. Considerable film was exposed to secure them at their best and this will be of great interest to parents and friends of the boys.

There is an opportunity for everyone to hear the capable young artists, Miss Elinor Whittemore, violinist, and Miss Calista Rogers, soprano, at the Red Cross Concert Friday evening, Aug. 31.

SOUTH PARIS

Two new buildings are going up on Highland Avenue. D. C. Swetzer has 22x35 ft. bungalow well along containing five rooms and a bath. Mr. Swetzer is a versatile worker, having done most of the work himself. His son, Harry Swetzer, has secured an adjoining lot with a 70 foot front and has the basement completed for bungalow 24x35 feet with six rooms and bath. The basement walls in both cases are made of poured cement, most of the material being taken from the lots. They plan to have everything completed before freezing weather.

Maurice Pence cut a gash in his leg with a double edged axe while working about the yard at the sled factory this week. The wound was four inches long and deep and he dressed without stitches being taken. A peculiar thing about the accident was that the axe made a bad gash without cutting the pant leg, the extent of the trouble not being known until some time when the blood began to seep through the material.

Arthur Dow, son of Mr. and Mrs. Frank Dow, writes that he may sail for France almost any day. He enlisted from the University of Maine as a Battery Engineer and sent to Row's Island just off Newport, R. I. His duties during the past few weeks have been confined to the dynamo furnishing current for the mines in an emergency.

Services at the Universalist church will be resumed next Sunday at 10:45 a. m. Sunday school at 12 m.

There will be exhibits of six grange associations, namely, President Robie Grange of Otisfield, Pleasant Pond Grange of Sumner, Hebron Grange of Hebron, West Paris Grange of West Paris, Norway Grange of Norway, Paris Grange of South Paris. BIG BARN DOOR SKETCHES

Kicks, Pats and Happenings which have Overtaken the Writer and Amused him Sufficiently to Record on Paper.

I dislike to think Joe Andrews of Marietta, Ohio, is a liar, but he talks very much like some people whom I know to be past masters in that art. Think of it! Cost of 33 weeks of eatables only \$35.60; weekly average cost of \$1.08 or 15c per day.

Seven days endurance test only 49c or 7 cents per day and walking 50 miles during the time. Hear this!

Another seven days for only 28 cents or 4 cents per day and 90 miles of leg exercise.

Don't that sound fishy for Down East people outside Lovell and Fryburg? Eh? The Advertiser published the above Aug. 17th on 7th page, 3d column. Also an interesting talk of Joe's visit to Oxford County on page 6th of that addition.

Four old time printers accidentally met at the Eagle Hotel. They worked together on the Lacombe Democrat in 1872. They were: Frank J. Truland, Louis J. Truland, J. Fred Batchelder and Fred W. Sanborn.

The home town of the first two was Littleton, N. H., and the two last came from Meredith and did not live far apart.

Frank Truland said he voted for Horace Greeley for president and then came to Lacombe where he has since lived. He and his brother, Louis, are in the job printing business in that city, while J. Fred Batchelder is a machinist and works for the Lacombe Car Company. The writer is stopping at the old homestead in Meredith, feeding pigs and waiting for the crops to ripen.

The youngest is past 62 and the oldest must be over 66 lest how could he have voted for Greeley?

"I'm to sell my stock pretty short this fall. Don't expect to winter a dozen head; horses I've got to keep as I have work for them. Barn crowded full of hay and I can't get in the meadow. Ice cutters would pay \$10.00 a ton for it, but it will cost more than that to cut, stack and handle so I'll let it stand just where it grew and save money in so doing." This is what was told me by a prosperous speculative farmer the other day.

"Next March I'll stock up with cattle if there are any to be had, and I guess I can find some and by the first of May I'll have the barn and yard full of things to turn out to pasture; that's the way I farm and make a little something."

"At grass I can take care of 75 head easily and they come up looking pretty well in the fall," he added with a knowing smile and twinkle of the eye.

"You see I manage to feed out the hay and make a gain on the stock in the pasture and that is about all there is to it. I can't make farming pay in any other way and perhaps this isn't farming after all. I know it isn't the kind talked about in the papers and held up for examples in agricultural colleges, it is simply turning pastureland into a profit. You can call it what you please."

Rural highways in Meredith are a little poorer than the average of poor roads I have traveled over in the State. Possibly I've been over more "back roads" here than elsewhere and that Meredith roads come more favorably than others.

If so the country road in New Hampshire are exceedingly bad, while State controlled roads are reasonably good.

There is a reason for this condition. The Draft System of Highway Maintenance is here employed. Twenty-three different men care for that number of sections of roads and make repairs when they get time and see fit whether the roads need it or not. They use up the money allowed and ask for more, but make no roads, nor cut any bushes.

The roads are simply kept passable and the surveyor gets from 40 to 70 per cent. or more of the money. This is the system employed in Meredith, hence poor roads at the highest cost. It is simply graft. That is all.

Who is to blame? I'll not say other than these 23 surveyors elect the selectmen and control affairs as regards road making and repairs.

This system is not employed in towns having the best rural roads.

Look it up and see.

John Collins operates a successful Pounding Home for Calves on his farm. He pays a reasonable price for one and two-day-old calves and turns them into a pasture to be nursed and cared for by cows kept for that purpose. These motherly matrons, with a little attention bring up several calves each season. The calves are raised on the farm and at the proper time sold at a good profit.

The idea is new to me yet it may have been practiced by thrifty people since the days of Moses in his Wilderness trip. John also deals in horses, hens, pigs, billy goats and wagons and keeps things moving at a profit. He commenced with an old horse and wagon some years ago and now owns several good farms with not a scratch of a pen against them.

In his early days father loaned him small sums of money. Mother would tell father that he would get "let down" in these transactions, but he never did. Collins always paid back just as he agreed right on the dot.

Step by step he absorbed everything that came in his way—excepting rum and tobacco—and was called "let down as a brick" even in a horse trade. He now occupies the place of a millionaire here and is a useful citizen.

How did he do it? I can't tell for I don't know. People say "everything comes his way," but I can hardly believe that and prefer to attribute his success to superior judgement and knack of trafficking coupled with untiring perseverance, energy and honesty.

That sounds well, any how.

I wanted to recharge the fire extinguisher and stepped into a popular Lacombe Drug store and requested the putting up of 11-2 pounds of bi-carbonate of soda and 4 ounces of sulfuric acid. The gentlemanly clerk's mind, if he had any, evidently was in the soda fountain and I asked him to write down what was wanted and fill it up at his leisure, his taking the usual "please make no mistakes."

"Oh! I know just what is wanted and will fill it up at once" was the prompt reply. He began traveling round reading labels on boxes and finally started in shoveling a white substance into the scale. There wasn't enough and he excused himself to go down stairs to open a barrel. I left saying I'd soon return and get it. A half hour later when I asked for it the same clerk said:

"Let's see, you wanted carbonate of"

I asked him if it had been put up and he grunted a negative and I simply boiled over in rage and slammed the screen door violently hoping it would bring down the tile front of the building.

I found a place with a less pretentious soda fountain and broke in saying: "Henry, can you put up a prescription and do it now—George Mallord is dead—and I've dumped round in these Main street ice cream and soda parlors—called Drug Stores until out of patience as everyone is to busy with bellie-wash and strawberry jam to put up a prescription."

Henry gazed calmly on the paper and smiled, looked towards the soda fountain and smiling again said, "Surely I can do it—this is an old-line drug store with only a small soda fountain attachment."

Glad to know it. Lacombe has run riot in soda fountain business and the sick and dying have little show at popular drug stores.

No wonder successful physicians carry an apothecary shop with them. Necessity compels it.

I went into a common, everyday grocery store—it was so labeled—corner of Main and Depot Square, and was shocked by the ice cream and bottled goods layout which sparkled in splendid brilliancy while I bought cheese and potatoes and asked the price paid for fresh-picked blueberries. The hilarious gaiety of scantily clothed summer painted patrons lapping ice cream and sucking bottled slop got on my nerves and I'll go there no more.

Mother Hotie has lost her waterpail in the well. This is the sixth one that has gone to the bottom and there is room for more.

Later: A long pole with hook attachment has fished out two. The other pails have somehow escaped.

Mother is picking ferns and chasing belated butterflies.

Eat out of the garden and thus cut the high cost of living.

Bean vines top the pole and bespeak an abundant crop.

The Princess calls me "the Kaiser" and takes real satisfaction in thinking the name fits.

Have you an A. and P. Co. in Norway? No, was the reply, but they have plenty of I. W. Ws. there.

The descendants of Jake Paul still linger at Mosquito Bridge as do the memory of the experiments of J. Willis Sanborn.

Roy Colby's dog ate two quarts of raspberries and survives. The danger was from the licking administered rather than the berries eaten.

No trespass signs stencilled in small letters on boards and put out in pastures looks cheap. Maybe it is because I'm in the printing business.

The nakedness of one of the Indian Maidens doing sentry duty in Tilton, N. H., is now covered with ivy—all save scabbard and tip of nose.

Best pickerel fishing day of the season was lost by attending a Ladies' Church Sale at New Hampton, but the Princess had to go and that settled it.

Mabel's rag dolls are thrown in a corner and she is now engaged in Red Cross and Christian Endeavor efforts. Over ten dollars were made at the last sociable.

The cloth-printed Chautauqua announcement so liberally posted in this vicinity have been gathered and are now doing duty as aprons and pocket handkerchiefs.

"I see my horse is pointing into the west, but the weather doesn't always mind him," was the reply made by Moses Merrow when asked about the probabilities of the weather.

"I had just time to cross the track and hitch the horse and the cars came, Whew-at-a-whew." This was John Smith's graphic description of the first train of cars he saw in 1845.

Farmer Smith had ripe tomatoes from his garden Thursday, Aug. 9th. He fed them to summer boarders and claims a secret process of ripening them. Whether it is the boarders or the tomatoes he is ripening I cannot say.

I wish the Peoples' Savings Bank would stop their fifteen minute chime clock nuisance when I'm in the city. It keeps me so busy counting the strokes and locating the fire I forget some of the errands and receive a call down when I get home.

Fergy made some paste three weeks ago and put it in a jolly tumbler and it has become the most powerful thing on the farm. Even the dog turns away from it. I like it. When unwelcome visitors call I set it between them and the wind and smile.

You don't get much ahead of the noble New Hampshire granger! He posts his pasture with no trespass signs to protect himself from the operation of the No-bull-in-the-pasture Act. It is not because he don't want you to pick berries but he wants protection for keeping the animal where it belongs hence the signs. This was told me and I presume it is correct.

Eliza says she has sold \$15.00 worth of raspberries this season. The patch is about twice as big as my dooryard. When picking I notice she breaks off the tops of the rank shoots and throws them on the ground. Thus you can plainly see how much she has picked over and too she tells me it makes 'em bear. She sells two quarts for a quarter and Warren has no share in the profits.

Mother made a discovery in the Libby Museum on her recent trip to Tuftonboro Bay. She says the moose had no upper front teeth and that there was an absence of teeth fully 2 1/2 inches on both upper and lower jaws before coming to the grinding arrangement with heavy molars. This she thinks is not as it should be. I have asked her to look in the mouth of the calf in the pasture and see if it has upper front teeth. She hasn't done so as yet, but knows it has for how could it bite grass if it had no upper front teeth?

WHY YOU ARE NERVOUS

The nervous system is the alarm system of the human body.

In perfect health we hardly realize that we have a network of nerves, but when health is ebbing, when strength is declining, the same nervous system gives the alarm in headaches, tiredness, dreamful sleep, irritability and uncorrected, leads straight to a breakdown.

To correct nervousness, Scott's Emulsion is exactly what you should take; its rich nutriment gets into the blood and rich blood feeds the tiny nerve-cells while the whole system responds to its refreshing tonic force. It is free from alcohol.

CHILDREN'S HEALTH OF FIRST IMPORTANCE TO A MOTHER.

Nothing causes greater anxiety to the mother of a family than the symptoms of illness in one of her children—Feverishness, loss of appetite, irritability, or listlessness—developing unexpectedly and without apparent cause, will at once produce uneasiness and worry in the mother's mind, unfitting her for her daily duties.

If the illness is due to digestive disturbances, worms, or a cold in its early stages, there is no safer, speedier relief for such trouble than prompt and systematic use of that old time household remedy, "L. F." Atwood's Medicine. It prevents congestion of the digestive apparatus, increases the flow of bile, and helps to correct the entire disturbance. Always keep a bottle ready for use in time of trouble, either for children or adults. At your dealer's, 35 cents. "L. F." MEDICINE CO., Portland, Maine.

As offered to-day should include instruction in all the Commercial Branches, Short-hand and Typewriting and the Burroughs' Automatic Bookkeeping Machine. The SHAW BUSINESS COLLEGE

WHY A PLAYER?

How many times do people say that they'd like to have "life to live over again?" Sort of a foolish wish. What's past is gone and regretting isn't going to bring it back not one inch or one second nearer.

What are the things YOU would like to bring back? Are you sorry you didn't have a musical education? Many people have been so busy doing things, they couldn't exercise their talents much. They found other work to do—more pressing work.

The Playerpiano is for people of that kind—for people who DIDN'T HAVE THE CHANCE—or who wouldn't take it. But—the Playerpiano fills in that gap of things you've wished for. It supplies music to you—BY YOUR OWN EFFORTS—that's maybe better than you would have learned it even if you'd studied and practised.

And it gives you that satisfaction of having a piano in your home. It makes it LIKE OTHER HOMES. It's a lot better than looking into the fire, and wondering WHY you hadn't improved your opportunities a good deal. It's better than a home SILENT for lack of music. It seems as though you'd let more LIGHT into your home and captured it, to feed it out just as your desires tell you to. The PLAYERPIANO is the bridge that connects today with what MIGHT HAVE BEEN in the long ago!

PROPOSED AMENDMENT NO. 1

Woman's Suffrage.

Chapter 4 of the Resolves of 1917 submits the following Constitutional amendments to the electors for their approval. First it is proposed that the following Article be appended:

"The right to vote or to hold office shall not be denied or abridged on account of sex; provided, however, that citizens by marriage only shall not be allowed to vote or hold office until after a period of residence in the United States equal to that required by law for the naturalization of men in this State. In the construction of this Constitution the masculine pronoun shall be construed as including both men and women."

Second, that Article II of the Constitution be amended by striking out the word "male" in the first line of section one so that said section one, as amended, shall read as follows:

"Sec. 1. Every citizen of the United States of the age of twenty-one years and upwards. Excepting paupers, persons under guardianship, and Indians not taxed, having his residence established in this State for the term of three months next preceding any election, shall be an elector for Governor, Senators and Representatives, in the town or plantation where his residence is so established; and the electors shall be by written ballot. No person, however, shall be deemed to have lost his residence by reason of his absence from the State in the military service of the United States, or of this State."

WEST SUMNER

Sylvester Bisbee, who is in Portland Hospital, is reported as doing as well as could be expected.

The terrifying electrical shower that struck West Sumner Monday was one of the worst that has visited this town for many years. John Heald's residence was struck twice, first the house and then the stable. Mr. Heald was sick in bed, Mrs. Heald and daughter received a severe shock. James Boyle's home, also Garrison Doble's was struck in the same shower. It did not set fire to any of the buildings in the village.

Mrs. Herbert Heath is critically ill with acute indigestion.

Rev. C. G. Miller preached his farewell sermon last Sunday.

Percy Redding has a new auto truck. Mrs. Elmer Ford is on the sick list.

WEST LOVELL

Pretty Event

An unusually pretty event occurred at Albert Gilmer's, Tuesday evening at their summer home on the island off M. S. Fox's shore. The whole island was lighted by Japanese lanterns. Fir pillows, candles, food, vegetables, ice cream were on sale at many tables, the proceeds to be devoted to Red Cross work. Earl Fox carried passengers from the west side and Alexander Laroque from the east side of the lake. There were many private boats prettily decorated and illuminated with Japanese lanterns, the Partridge and Strouse boats being awarded first prize and Don Dickerman's the second prize.

Bridgton Academy will not open this fall until Tuesday, Sept. 25th, because many of the young people are engaged in harvesting the crops. See ad.

Mexico is very fortunate in being able to secure Summer graduates of this town, and a graduate of Bates College the past year, who will act as principal of the Junior High and sub-master in the Senior High. While in college Mr. Davis played on the football and baseball teams for four years and led the past year was captain of baseball. He was also a member of the track, basketball and hockey teams each year. Not only was Mr. Davis active in athletics while in college but also he took an active interest in the social life. This summer he has been one of the leaders of the Maine Junior Volunteers.

Mrs. Persis Swan of Portland, formerly of this town and Norway, is the guest at Albert Dean's and Mrs. Carl Briggs'. She plans to remain until the county fair. Mr. and Mrs. Ellbridge Macdonnell have returned from their wedding trip and will occupy the Erland Torrey house. Jurors drawn Saturday for service at the October S. J. Court from the town of Paris are:

At a special meeting of the stockholders of the Paris Shoe Company held at the shop of the company Tuesday afternoon, Aug. 21, it was voted to increase the capital stock from ten thousand to twenty-five thousand dollars and the directors were empowered to employ a Superintendent. It was also voted to purchase the building now occupied by the company from Alton C. Wheeler, the present owner.

The Service League served an informal tea Saturday afternoon at their rooms from three to five o'clock. Supt. Thompson, who is visiting in town, kindly told the fortunes of the guests by reading the tea grounds in the cup. The result furnished great sport and four dollars to the League treasury.

Winfield A. Brooks is home on a furlough with his parents, Mr. and Mrs. Leon Brooks for a month. After graduating from the high school here he attended the University of Maine until he received an appointment to Annapolis. He has been at the Military Academy two years and this summer has been on the battleship Florida. Owing to the war conditions the course at Annapolis has been shortened one year so Mr. Brooks will graduate from there next spring.

Mrs. Mandana L. Miller of Waterville, Mass., is visiting her sister, Mrs. Ellen E. Blake. Mrs. Miller is 87 years old, in perfect health and one would never realize her advanced age. Until nine years ago she was employed in the Waltham Watch Company factory, having been with the concern 57 years. She plans to return home Saturday.

Mr. and Mrs. E. P. Parlin of Wilton came from Old Orchard, where they spent the week-end with Mrs. Parlin's mother and sister, Mrs. Ellen E. Blake and Elizabeth Edgerly.

The field day of the Seneca Club was held on Tuesday, Aug. 23, at Haskell's cottage. Twenty-one sat down to luncheon at a long table on the veranda, so the shower had no effect on the high spirits of the jolly party. Rook and auction were enjoyed but the main thing of the day was knitting. It was Eva Walker's birthday in honor of which she was crowned with a wreath made especially for the occasion.

Albert D. Park has been engaged as auctioneer at a large sale of Morgan horses and Welch ponies at Shelburne, N. H. Mr. Park's versatile ability in any line is unquestioned but as an auctioneer he certainly has the majority of that fraternity backed into a corner because of his fluency.

Alton C. Wheeler, Esq., was one of the speakers at the Governor Milliken at a civic meeting held by W. T. C. U. at Old Orchard on Tuesday evening.

Besides the box of supplies recently sent to the Red Cross, the Service League has just forwarded many knitted articles to the Postmaster's Navy Yard, to be used for our Maine boys. The list included 35 pairs wristers, 8 sweaters, 13 pairs socks, 1 skull cap, 2 pair heeless socks, 31 scarfs, 3 helmets.

Mr. and Mrs. A. L. Holmes and son, who have been spending some time at their camp at Shagg pond, are home. Mr. and Mrs. William Holmes and daughter, Margaret, spent a few days here before starting on their return trip to their home at Southington, Conn.

Prof. and Mrs. Lyon of Boston, were guests of Mrs. Lyon's mother, Mrs. Louise Blanchard, at Wirt Stanley's recently while on their way to the Rangeley Lakes for a vacation trip. Prof. Lyon is a teacher at the Massachusetts Institute of Technology.

Vegetable Gardens Raided

A person or persons are securing a free vegetable diet at the expense of several hard working truck raisers in this village. During the past two weeks many have complained that cucumbers, beans and tomatoes are disappearing in a manner that resembles the handiwork of man. Foot prints about the gardens thus entered are not cloven, but the one inside the shoes without a doubt has the proverbial teasing fork.

The latest complaint is made by Charles P. Canwell, Water street, who has a fine vegetable garden on the Cole land above the boat landing. The family picked their first mess of green corn Sunday, but when they went over in a happy frame of mind for their Monday dinner the corn had vanished, only a few scrubby ears being left.

Mrs. Canwell is somewhat "riled" over this episode and well she might be. The family have spent good money and given hours of hard work to bring the crops to a generous yield. We believe she expresses the sentiment of all in the remark that "If any needy person, who was unable to plant, would come to us in the open and honorable way, we would gladly share our products without begrudging one item. When they sneak in the dark and cart away at least two bushels of vegetables, representing so much hard work and money, we certainly have harsh feeling about our loss."

Dr. Fred Drake leads a party who say the thing has gone far enough and it must be stopped. In company with several business men Dr. Drake is willing to contribute to toward a generous reward for the apprehension and conviction of the guilty party.

If it is a case of want or necessity that prompts these acts, come forward and the proper measures will be taken to overcome the difficulty, but otherwise look out!

The Grange exhibit committee will talk over plans and arrangements for the same. DENMARK

Commits Suicide

Will Kent of Brighton, who has been in very poor health for the past six months, committed suicide by hanging himself at the home of Luther Trumbull on Friday morning, Aug. 24.

Mr. Kent was well known throughout this section. He came to Mr. Trumbull's when a boy of 14 and stayed for several years with him. Mr. Kent was in the habit of taking long walks before breakfast, so nothing was thought of it when he did not return for breakfast, but the family became worried after breakfast was eaten and he had not returned and on going to his room it was discovered that he had slept in his bed as usual.

They then began a search for him and he was found about 7:30 in the morning by Irving Trumbull, hanging to a pine tree about 40 rods from the buildings. Mr. Kent had on all of his clothes and it is presumed that he killed himself in the early hours of the morning. It is supposed that he had the place all fixed several days before hand. He went about one-half mile to the shore of Sand pond and secured a three-eighths inch rope that was used as an anchor rope in Mr. Kent's boat.

Mr. Kent's post. Mr. Kent has been dependent for some time, but nothing was thought of it as he was a man that was ambitious and it was thought that he was worrying about his work, but no one supposed that he was as bad off as he was, yet came as a dreadful shock to his relatives and friends and all who knew him.

Mr. Kent was a man well fixed in the world in money matters. One hundred and twenty-five dollars and five cents were found in his pockets by the coroner, Mr. Bartlett of Norway. Mr. Kent is survived by two sisters, Mrs. Eliza Bagley of Malten, Mass., and one of Montreal, Canada, and a half sister, Mrs. Colby Trumbull of Brighton, where he made his home.

Mr. Kent was a stone and cement worker by trade. The burial was from his sister's home in Brighton on Sunday afternoon. Funeral services were conducted by Rev. Luther McKenney of Brighton.

PAINS SHARP AND STABBING

Woman Thought She Would Die. Cured by Lydia E. Pinkham's Vegetable Compound.

Ogdensburg, Wis.—"I suffered from female troubles which caused piercing pains like a knife through my back and side. I finally lost my strength so I had to go to bed. The doctor advised an operation but I would not listen to it. I thought of what I had read about Lydia E. Pinkham's Vegetable Compound and tried it. The first bottle brought great relief and six bottles cured me. All women who have female trouble of any kind should try Lydia E. Pinkham's Vegetable Compound."—Mrs. ETNA DORTON, Ogdensburg, Wis. Physicians undoubtedly did their best, battled with this case steadily and could do no more, but often the most scientific treatment is surpassed by the medicinal properties of the good old fashioned roots and herbs contained in Lydia E. Pinkham's Vegetable Compound.

If any complication exists it pays to write the Lydia E. Pinkham Medicine Co., Lynn, Mass., for special free advice.

The heavy thunder shower which passed over this place Monday night did a big lot of damage to a number of houses, animals and trees. Not much that didn't receive a little blow from the storm. It was the worst thunder shower for years.

Stearns, our store keeper, says hens know they are high for him to buy and he thinks they know more than people give them credit for and one lady made the remark that George Files and Will Smith were buying up all the hens and eating them and the rest couldn't expect to have many eggs to eat.

Relations Broken Off

This time it was the cook who severed the relations. She had been trying to construct satisfactory meals from unsatisfactory groceries.

ROOFING - ROOFING - ROOFING

This week owing to the arrival of a large car of NEPONSET products, the result of making contract to handle this stock, we are going to make good our promise to you to watch this space for the best trade in Roofing to be had in this vicinity.

When you purchase a suit of clothes, quality and price determine your purchase, then why should you not be as particular in selecting your Roofing which for twenty-four hours in the day, day in and day out, year in and year out, is openly exposed to the changeable weather.

If these are facts we will give you the answer:

Buy Paroid Roofing

The only Roofing having a record of eighteen years

And it is here in large quantities for your inspection. The Oxford Electric Company have a roof covered with the Light fourteen years ago and is still in fine condition. If you want the best, it is Paroid. If you want a medium grade we have that, if you want a cheap grade we have that too, all of which we will be pleased to have you inspect and compare quality and price with any offered by other dealers.

ALBANY

Albany Line

Mrs. Wm. Fisk has been enjoying a visit from her two nieces from Brooklyn, the Misses Applegate.

John Grover and George Abbott of North Waterford called at E. K. Sheild's Saturday.

C. X. Eastman and Walter Lord went to Upton the first of the week after another drove of cattle. They are doing a thriving business in the cattle line.

Ernest Brown bought a fine pair of matched Holstein steers of Fred Bartlett Saturday.

Wm. Fiske and family went to Buckfield on a pleasure trip last week, while there Mr. Fiske bought a thoroughbred Durham bull. It is a splendid animal.

Mr. and Mrs. Wm. Fiske carried their nieces to South Waterford the last of the week. They will go from there home.

Linwood Flint went to Hunt's Corner after some porcupines last week. He has bought many this season. Trade seems to be brisk with them, as he has shipped a number.

Horace Andrews is stopping at present with his brother, Newell. Newell Andrews is a born musician. He has a son seven years of age that can play any piece he hears by ear. He picked it up without any help. He can certainly make an instrument talk well for one so young.

Frank Hatch of Lovell, who has been visiting his grandmother, Mrs. Charles Marston, returned home Sunday.

Mr. and Mrs. Charles Marston spent the Sabbath with Mrs. Marston's mother, Mrs. E. J. Paige, where Mrs. Marston celebrated a birthday.

A party from Norway spent the day at David Jordan's the 26th. Dr. Littlefield and wife of South Paris were among the guests. They have a very pretty summer home here and they all seem to enjoy it. As they all have autos, they visit their old home quite often.

A number in this vicinity are still haying, owing to the long spell of wet weather. There are a number of fine meadows that will not be cut over this year.

Wallace Jones of North Waterford is hauling hay from this way. He had all he could haul away given him. It was cut and in tumbles in the field.

E. K. Sheild bought a cow of Wm. Rice last Tuesday. Mr. Rice has bought the Freeland Howe stand in Norway, where they are soon to move.

Josephine Lord, little daughter of Wm. Lord, had a kitten given her one day. The next day she sold them for five cents apiece. She said she thought she did well, as she had no use for them. She is showing some of her father's trading spirit young.

Mrs. Charles Marston is expecting a visit soon from her aunt, Mrs. J. L. Paige, from Eskridge, Kansas.

Charles and Irvin Morey carried two porcupines to Linwood Flint the first of the week.

Mrs. Fred Scribner is on the sick list. George Abbott recently fell from a load of hay, giving him a bad shaking up. He was fortunate in escaping as he did.

Dr. Hale, son-in-law of William Ward of this place, came from Providence, R. I. with his sister, her husband and child, in eleven hours. He started from Rhode Island at 9 P. M. and arrived at Pappoose Pond, Waterford, at 8 A. M. next day. They have a powerful car. They stop at the Play House while here.

Mrs. R. E. Penfold and two children of Portland are visiting relatives here and in

North Waterford. She came up with her father, J. P. Lord, who went from Durham to Portland after her. He will take Ernest Brown and Pearl Weymouth back with him. They are going to help him cut his hay.

A number have been on the Mountain blueberrying. They report them very scarce.

Fernald's Mills.

Mrs. Etta Saunders, Will Bird and Mrs. Mattie Rugg and two children spent the day Sunday at Frank Stevens' at Locke's Mills and picked raspberries.

Mildred Rugg spent the week end with Mrs. Muller at South Waterford.

Mrs. E. E. Barker has been entertaining her brother, Henry Edmonds, for the past ten days. It has been very pleasant for her, it is the first time he has ever visited her.

Mrs. Harriet Wilson, after spending the past four months with her mother, Mrs. Louisa Rand and sister, Mrs. Chas. McAllister and family, went Monday to visit her son, Cleve Wilson, in Hanover, N. H., and also to meet her other son, Henry Wilson, of Philadelphia.

Mrs. Fannie Briggs was called to Bethel recently by the illness of her mother, Mrs. Carver.

School began in this district August 27. Mrs. Otis Cobb, teacher.

Nina Briggs, teacher at Middle Intervale, Bethel, the coming year.

Valley Road

Myrtle Bartlett of Locke's Mills has been visiting her sister, Mrs. Charles Conner.

Ronell Cummings, who enlisted, has passed the examination and is at Brunswick at present.

Mrs. Louisa Tibbetts is gaining and is able to be out riding.

Robert Bennett of Bird Hill was calling on friends Saturday and Sunday.

Mr. and Mrs. Charles Conner have been entertaining relatives from Oxford.

Arthur Cross and Thomas Kennagh were in Gorham, N. H., Friday.

Mr. and Mrs. Dana Harrington and children of East Bethel visited at Charlie Conner's Sunday.

Potatoes and beans are beginning to rust, it has been such wet weather.

Arthur Cross is building a new barn, Lincoln Cummings of Bethel is helping him.

There will be a dance at the Town House, Sept. 8th.

There was a heavy thunder storm here Friday night. The lightning struck near the Arthur Cross place and several people near by received shocks from it.

EAST SWEDEN.

Rather discouraging hay weather hereabouts last week, but it is making hay for another year.

W. L. Marr helped Ray Kneeland do his haying.

H. H. Bisbee has a large lot of lumber to haul to North Bridgton to be shipped away.

School in this district commenced Aug. 28th. Miss Davis of Lewiston, teacher.

Horatio Gardner visited at Will Durbin's last week.

O. H. Haskell and family were on a camping trip in New Hampshire last week.

Corn and potatoes that were planted early are looking as though we might harvest a fair crop at least, weather being favorable. Small crop of winter fruit in this place.
